

WORKPLACE PARTNERSHIP FOR LIFE!

Commitment Form

A Donate Life Organization

Former U.S. Department of Health and Human Services Secretary Tommy Thompson launched the Workplace Partnership for Life in 2001 as a national initiative to encourage and enable Americans to "Donate the Gift of Life" through organ and tissue donation. The Workplace Partnership for Life program gives employees and members of community and civic organizations the chance to become informed about organ and tissue donation.

Donor Network of Arizona (DNA) is asking Arizona businesses and organizations to become members of the Workplace Partnership for Life program in order to help build awareness about the need for donation and encourage people to sign up on the Arizona Donor Registry -- www.DonateLifeAZ.org.

Yes! Our company is committed to inspiring our employees and/or customers to "Donate Life."
